Department Vision Statement

To be a recognized department of Computer Application that produces versatile computer professional with the ability to adapt to the changing needs of computer and related Industry.

Department Mission Statements

The mission of the Department of Computer Applications is:

1. To provide broad based quality education with knowledge and attitude to succeed in Computer Application career.
2. To prepare students for emerging trends in Computer and related industry.
3. To develop competence in students by providing them skills and aptitude to foster culture of continuous and lifelong learning.
4. To develop practicing professionals who investigate, design and find workable solution to the related complex problems with awareness and concern for society and environment.

Program Educational Objectives (PEOs)

PEO-1 Graduates will be efficient leading professionals with the knowledge of computer application discipline that enables them to pursue higher education and/or successful careers in national and global realms.

PEO-2 Graduates will possess the capability of designing successful and sustainable innovative solutions to real life problems that are technically sound, economically viable and socially acceptable.

PEO-3 Graduates will be competent team leaders, effective communicators and capable of working in multidisciplinary teams following ethical values.

PEO-4 Graduates will be capable of adapting to new technologies/tools, constantly upgrading their knowledge and skills with an attitude for life-long learning.

PEO-5 Graduates with an aptitude of self-employment will be able to initiate and build upon entrepreneurial ventures or demonstrate enterprising expertise for their employer organization.

Department Program Outcomes (POs)

The students of Computer Application Department will be able:

PO1	**Computer Application Knowledge:** Apply the knowledge of mathematics, social science, fundamentals of computer application, and management to the solution of complex problems.

PO2	**Problem Analysis:** Identify, formulate, review research literature, and analyse complex problems reaching substantiated conclusions using basic principles.
PO3	**Design/Development of Solutions:** Design solutions for complex computer application problems and design system processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
PO4	**Conduct Investigations of Complex Problems:** Use research-based knowledge and research methods including design of experiments, including analysis and interpretation of data, and synthesis of information to provide valid conclusions for complex problems – • that cannot be solved by straightforward application of knowledge, theories and techniques applicable to the Computer Application discipline. • that may not have a unique solution. • that require consideration of appropriate constraints / requirements not explicitly given in the problem statement. • which need to be defined within appropriate mathematical framework and that often require use of modern computational concepts and tools.
PO5	**Modern Tool Usage:** Create, select, and apply appropriate techniques, resources, and modern Computer Application and IT tools including prediction and modelling to complex Computer Application activities with an understanding of the limitations.
PO6	**The Computer Professionals and Society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional computer application practice.
PO7	**Environment and Sustainability:** Understand the impact of the professional computer application solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
PO8	**Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the computer application practice.
PO9	**Individual and Teamwork:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
PO10	**Communication:** Communicate effectively on complex Computer Application activities with the community and with society at large, such as, being able to comprehend and write effective reports and design/maintain documentation, make effective presentations, and give and receive clear instructions.

PO11	**Project Management and Finance:** Demonstrate knowledge and understanding of the computer application and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
PO12	**Life-long Learning:** Recognize the need for and have the preparation and ability to engage in independent and lifelong learning in the broadest context of technological change.

Course Outcomes:

On successful completion of this course:

S No	Course Outcome
CO1	Identify **[L1: Remember]** and finalize the problem statement by surveying a variety of domains.
CO2	Specify **[L2: Understand]** the design methodologies appropriate to solve the problem.
CO3	Apply **[L3: Apply]** appropriate tools and techniques, resources to implement design exhibiting integrity and ethical behaviour of engineering practices.
CO4	Test and defend **[L4: Analyse]** their work along with their team members through reports and presentations.

DECLARATION

We hereby declare that the work presented in this report entitled "REPORT TITLE", was carried out by us. We have not submitted the matter embodied in this report for the award of any other degree or diploma of any other University or Institute.
We have given due credit to the original authors/sources for all the words, ideas, diagrams, graphics, computer programs, experiments, results, that are not my original contribution. We have used quotation marks to identify verbatim sentences and given credit to the original authors/sources.
We affirm that no portion of my work is plagiarized, and the experiments and results reported in the report are not manipulated. In the event of a complaint of plagiarism and the manipulation of the experiments and results, we shall be fully responsible and answerable.

Certificate

This is to certify that Project Report entitled "ProjectTitle"which is submitte d by Student Name in partial fulfilment of the requirement for the award of degree B.C.A of PSIT-College Of Higher Education, affiliated to C.SJ.M. University, Kanpur is a record of the candidates own work carried out by them under my/our supervision. The project embodies result of original work and studies carried out by the students themselves and the contents of the project do not form the basis for the award of any other degree to the candidate or to anybody else.

Abstract

(An abstract should be in 300-500 words.)
Guidelines
1) Heading Font Size: 14
2) Content Font Size: 12
3) Font Name: Times New Roman
4) Line Spacing: 1.5”
5) Alignment: Justified (Left & Right both)

(Remove these settings guidelines while printing).

Synopsis

(Attach the signed copy of synopsis here).

(This page should not be printed)

Guidelines
1) Heading Font Size: 14
2) Content Font Size: 12
3) Font Name: Times New Roman
4) Line Spacing: 1.5”
5) Alignment: Justified (Left & Right both)

Minor Project-Time Line

PROJECT SCHEDULE ODD SEM 2026-2027

ACTIVITY	DEADLINE	PERSON INCHARGE	DOCUMENT/FORM
Title/Group Formation/ Supervisor Allocation	Till 24th July-2026	Supervisor/Group leader	Project Proposal
Proposal Submission	Till 14th Aug-2026	Supervisor/DPC	Project Proposal
Progress Evaluation 1	During CT-I	DPC/ Evaluators	Power Point Presentation/Synopsis
Weekly performance Monitoring	Throughout the semester	Supervisor	Project Diary
Progress Evaluation 2	During CT-II	DPC/ Evaluators	Power Point Presentation
End Semester Report (Project work Submission)/ Final Evaluation	During PU	Supervisor	Project Diary/ Power Point Presentation
